FRANKLIN BROTHERS

CZOLGOSC NOT ALONE

It Is Firmly Believed Others Concerned in His Crime.

A SERIES OF CRIMES.

Some Connect Emma Goldman With the Conspiracy and the Murder of the President Only the Beginning of the Plots.

Buffalo, Sept. 9.—That there was a conspiracy in which many besides Czolgosc were concerned and which had the destruction of President McKinley as its purpose, is the firm conviction of all the members of the cabinet and of the Buffalo police. An agent of the United States secret service said that the theory is held that Emma Goldman, the anarchist, was the prime mover in this plot, which may have contemplated a series of crimes, of which the murder of the president was only the beginning. Emma Goldman was in Buffalo last Monday. She was here under an assumed name. What the object of her visit was has not been learned, but presumably it was in connection with the crime that followed four days later. The police all over the United States are now searching for Emma Goldman, who seems to have disappeared utterly. It can be stated on absolute authority that this woman teacher of anarchy will be expelled if excuse of law can be found for such an act. Moreover, she will not go alone. Holding to the theory that the anarchists conspired against the constitution, authority and government of the United States and planned the assassination of President McKinley, the members of the cabinet will urge that strenuous efforts be made to eradicate them. Secretary Root is particularly earnest in urging this.

Few believe that Czolgosc was alone in the crime, or that he has been anything more than a mere instrument under the control of the real conspirators. That other and important arrests are contemplated in the near future, is known to be a fact.

Czolgosc has made no additional admissions to the police officials and nothing they have learned has added toward a solution of the criminal side of the case. He still insists that he alone conceived, planned and carried out the crime and that he alone must answer for it.

He admits he attended meetings at which Emma Goldman spoke and where he and his fellow anarchists discussed their propaganda of murder, but steadily denies that any of them had a part in his plans. He says he did not divulge to them any feature of his scheme to kill the president.

WATCHING ANARCHISTS.

Move Made in New York City to Stop Holding of Meetings.

New York, Sept. 9.—Haunts of anarchists in this city were deserted Sunday, according to the police. Special detectives have been on the watch everywhere members of the band are known to have collected in the past.

Instructions have been issued to the owners of halls not to rent them to anarchists. Same conditions ruled in Paterson where no big meetings were held as is customary on Sunday.

Mayor Hinchliffe of Paterson has given notice that any saloonkeeper who rents his hall for anarchists' meetings will have his license revoked. Licenses will be refused to applicants known to be even friendly with the followers of the red flag.

More Anarchists Praise Czolgosc.

McKeesport, Pa., Sept. 9.—Two hundred Italian anarchists celebrated President McKinley's attempted assassination Sunday at Guffey Hollow, a mining hamlet across the river from Buena Vista. Beer, whisky, speeches, songs and praise for Czolgosc were the order of the day. This is one of the largest anarchist groups in the country. It was started and led for years by Garcia Ciamesvillia, who now lives at Springfield, Ill., and edits The Firebrand, the anarchist organ of Chicago. When Bresci assassinated King Humbert he declared that McKinley would be the next victim of the anarchist plots.

Conferred With Chicago Anarchists.

Chicago, Sept. 9.—If any further proof was needed that Leon Czolgosc was the guest of Chicago anarchists shortly before he went to Buffalo on his murderous mission against President McKinley, it was supplied Sunday by three of the prisoners in the Central police station here. They identified a photograph of the murderous "red" as a picture of a man whom they saw at the home of Abraham Isaak, 515 Carroll avenue, not longer than July 12.

Eleven men and women, avowed anarchists, are under arrest here on the charges of conspiracy to commit murder and others will be arrested.

WITHOUT A QUORUM.

Neither House Had Enough Members to Transact Members.

Austin, Sept. 9.—Neither branch of the legislature had a quorum this morning. The house was shy 11 and the senate 5. The house recessed until the afternoon and the senate adjourned to tomorrow morning.

Resolutions condemning in unqualified terms the assassination of President McKinley will be offered as soon as a quorum is present. Legislators condemn the act as dastardly, and very likely steps will be taken by the legislature to get the national congress to pass a law for the banishment of all anarchists out of the United States.

Dowieite Patient Dead.

Wichita, Kas., Sept. 9.—The Dowieite missionaries' first patient in Wichita is dead, and as a result there is great indignation among the neighbors of William Jones, whose 13-year-old son is the victim. The boy contracted typhoid fever, and his parents, who had become disciples of Dowieism, called in the local missionaries, Mr. and Mrs. D. A. Reed. The latter advised them not to call in a doctor, since they could cure the child by means of their prayers. Accordingly they prayed, and prayed hard. The boy gradually became worse and finally died. The Dowieites claim the lad had no faith, and consequently could not be benefited by prayer. The neighbors blame the parents, since they say that the child's life might have been spared if a physician had been called at the proper time. The matter will likely be taken up by the police department and an investigation made.

Severe Storm on Lake Huron.

Port Huron, Mich., Sept. 9.—The worst disasters ever on Lake Huron are piled up on shore here. Many thousand dollars worth of vessels and property were wrecked and the chance for getting them off are slim unless many thousands of dollars are expended in dredging. Strange to say in connection with this great calamity there is no loss of life. The life saving crew took off 38 people and the others were beyond danger. The storm raged 24 hours.

Prostrated by a Charivari.

Abilene, Kas., Sept. 9.—Startled by a charivari just after her wedding ceremony Thursday evening, Mrs. William Bailey still lies unconscious at her father's home, 10 miles north of town. The ringing of a number of cow bells and blowing of horns so startled her that she fainted, and has since lain in a semi-stupor. She has grown worse and the physicians fear that her illness will end fatally.

No Official Reception.

London, Sept. 9.—The Times prints a dispatch from Tokio stating that there will be no official reception of the special mission sent by China to apologize for the murder of Sugi Yama, the chancellor of the legation at Peking, until it is presented by the Chinese minister to Japan. No complications are feared, as the Japanese ceremonial only will be required.

Miss Stone Still a Prisoner.

Constantinople, Sept. 9.—The American legation learns that Miss Stone, the missionary who was abducted last week by brigands in the vilayet of Salonica, is still a prisoner in the hand of her captors. It has not yet been stated what ransom is demanded for her release.

Sultan's Cooks Mutiny.

London, Sept. 9.—The Constantinople correspondent of The Times says that owing to the nonpayment of salaries, the kitchen staff of the Yildiz Kiosk mutinied last week. The sultan ordered the payment of wages, but at the same time had several cooks imprisoned.

Died from Poisoning.

Fort Worth, Tex., Sept. 9.—Frederick Mennasha, aged 22, died Sunday from poisoning. He was found dead at his father's home on Gay street. He was despondent over a love affair. He is said to have been engaged to a young woman who went to New Orleans last week.

Shot in Saloon Brawl.

St. Louis, Sept. 9.—As the result of a three-cornered fight in a saloon, which culminated in a revolver fusillade, Aug. Walsh was shot in the head, but the wound is not serious. He was shot by Martin Coyne. Michael Dalton was also mixed up in the fight. Coyne and Dalton were arrested.

Plot Against the Assassin.

Buffalo, Sept. 9.—The police believe they have discovered a conspiracy to take the life of Czolgosc. He has been removed to a dungeon in the basement many feet below the surface of the earth.

Rebel Leader Surrenders.

Manila, Sept. 9.—The insurgent leader, Angeles, has surrendered in Camarines with 19 officers and 42 men, and a number of rifles and a quantity of ammunition. Numbers of other small surrenders occur daily.

Big Fire in China.

Vancouver, B. C., Sept. 9.—Steamer-Tartar brings news of a disastrous fire in Foo Chow, China, with a loss of \$1,000,000. Many coolies who resorted to loot during the fire were shot down by the police.

services were attended by about 7000
people. Rev. Henry Cohen, rabbi of
the Jewish congregation, opened the
services with prayer, Rev. Father James
Kirwin, of St. Mary's Catholic cathedral
delivered an address, as did also Col. R.
G. Street, and Rev. William Harris of

after which the planting of cedars and

and several hundred cedars were placed

QUESTION ANSWERED.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers' and grandmothers' never thought of using anything else for Indigestion or Billiousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's Prize Almanac. For sale by Wilson-Jenkins Drug Co.

PRESIDENT IS BETTER

His Condition Satisfactory to All Attending Physicians.

THERE IS NOW HOPE.

The President Rests Well Under the Circumstances and Has Been Given Food—The Crisis Has Almost Been Reached.

Buffalo, Sept. 9.—President McKinley's condition early this morning was so favorable it has dispelled almost the last shade of doubt and apprehension and has led those nearest to him to make the most confident predictions of recovery. Official bulletins from physicians, as well as authoritative statements of those most intimate in relation with the presidential household, give certain evidence of the feeling that the worst phases of the crisis is about over.

The 6 a. m. bulletin in referring to the president's somewhat restless night gave temporary apprehension, but this was speedily dispelled by the results of the consultation held by the doctors from 8 to 9 o'clock officially announced at a later hour. This disclosed marked improvement in pulse and temperature. Aside from these pathological features the doctors gave cheering information, free from all technicalities, that the president's condition was becoming more and more satisfactory and untoward complications less likely. Besides their official utterances, doctors gave expressions reinforcing their buoyant and confident tone.

They made known, too, that the president's mind was clear, his mental faculties as vigorous as ever and that he retained his cheerful and happy disposition. He was even ready to talk with the doctors, but they restrained him to a considerable extent. These positive assurances gave to members of the cabinet and relatives and nearest friends of the president a feeling of confidence little short of absolute certainty that the president is now well on the way to recovery.

Every word that came from the big vineyard house on Delaware avenue Sunday, in which the stricken chief magistrate of the nation lies battling for life, was reassuring and the chances of his recovery are so greatly improved that all of those who have kept patient vigil at his bedside feel strongly that his life will be spared.

The developments of Saturday night and Sunday were dreaded, but hour after hour passed and the distinguished patient, struggling there beneath the watchful eyes of physicians and trained nurses showed not an unfavorable symptom. Five times during the day the eminent doctors and surgeons assembled for consultation and each time the verdict was unanimous that what change had occurred was for the better. Not the slightest premonitory symptom of peritonitis appeared.

All the effects of the ether which was administered when the operation was performed on the exposition grounds, had disappeared Sunday morning and the president's mind was perfectly clear during the time he was awake. Sunday for the first time he had natural sleep. While he was still more or less under the influence of the anesthetic his slumber was restless and disturbed and did him little good. Sunday between 9 and 4 o'clock he had the solace of natural slumber for about four hours and the physicians stated that his sleep had been quiet and restful and helped the sufferer a great deal.

Sunday also for the first time, nourishment was administered. It was in liquid form and was injected hypodermically to avoid the possibility of irritating the walls of the stomach. The exterior wound is progressing satisfactorily.

All of the members of the cabinet are here now except Secretaries Hay and Long, but both are expected. The cabinet officers are holding no formal meetings, although there are some matters of public business which they daily discuss informally and the possible contingencies should the president grow worse, are also thoroughly canvassed. They do not believe there is the remotest possibility that Vice President Roosevelt will be called upon to exercise functions of chief magistrate under the disability clause of the constitution, while the president lives. Vice President Roosevelt would not hear of such a course. Still in the event of grave international complications an emergency might occur that will force action.

The messages of sympathy continue to come from all over the United States and all over the world and in fact have fairly overwhelmed Secretary Cortelyou. Two more white house envoys have been sent for and upon their arrival some of the more important messages will be made public. Almost every government in the world has been heard from.

Mrs. McKinley continues to bear up bravely and her fortitude under the circumstances is regarded as remarkable. One of her dearest and closest friends, Mrs. Rand, of Washington has arrived here and will remain with her.

The members of the cabinet are doing everything in their power to prevent the sensational exploitation of Ozoigose, because he undoubtedly craves notoriety, and because his fellow anarchists throughout the country love it. They do not desire to place any stone in the path of the authorities who are laboring to unravel the plot, if any existed, and all the machinery of the government secret service will be used to aid the state authorities in the prosecution of their investigation.

ROOSEVELT GUARDED.

More Safeguards Thrown Around Him Than the President.

Buffalo, Sept. 9.—Although Vice President Roosevelt does not know it, the government has made more adequate provision for his protection than it did for that of President McKinley. Whenever the vice president leaves the residence of Lawyer Ansley Wilcox, where he is staying, there are two or three secret service men at hand to ward off any attempt that might be made on his life. The orders for the protection of the vice president comes from a source that is not disclosed. During his attendance at services in the Presbyterian church Sunday six secret service men occupied seats within a short distance of him. One of them took a seat on the box of his carriage when he drove away and the others followed in another carriage. When he alighted at the Buffalo club during the afternoon, the detectives were close at hand and when he called at the Milburn house to inquire after the president, they were in a few feet of him.

Polish Citizens Indignant.

New York, Sept. 9.—An indignation meeting attended by about 5000 Poles, of which it is estimated there are 60,000 in New York City, was held Sunday at the church of St. Stanislaus and bitter words of denunciation of Ozoigose and his crime were uttered, while the expression of sympathy for the president and those belonging to him was warm and universal. Doubt as to the nationality was discussed and it was decided to make a full investigation and to the American people that he is not a Pole but a Russian.

Polish Citizens Make Protest.

Philadelphia, Sept. 9.—Over four hundred Polish-Americans gathered in St. Laurentius Roman Catholic church here Sunday, passed resolutions deploring the shooting of President McKinley and protested against the statements that would be assassinated was connected with the Polish people of this country. Seventeen Polish-American societies were represented at the meeting.

The Assassin Indifferent.

Buffalo, Sept. 9.—Leon Ozoigose continues to eat well and sleep well and seems absolutely indifferent to his fate. He makes no inquiries as to the condition of the president and apparently cares nothing at all as to the outcome of his injuries.

LONG REFUSES.

Will Not Entertain Proposition to Persecute Admiral Schley.

Buffalo, Sept. 9.—Acting Secretary of the Navy Hackett has been pressing Attorney General Knox both by wire and letters to appoint one of the assistant attorneys generals to assist Captain Lemly, judge advocate of the Schley court of inquiry, in the conduct of the case before the court. The attorney general, however, has declined to take the step which he believes would look like government prosecution of an officer under investigation. The government, in his opinion, should have no part in the inquiry. It is an inquiry under the navy department, made at the request of Admiral Schley and the government has nothing to do with it.

The president himself had recommended Admiral Schley for promotion and now for the department of justice to detail an officer under it to assist in the conduct of this case would inevitably be construed as a desire on the part of the administration to convict Admiral Schley. The attorney general was sustained in his position by all members of the cabinet whom he consulted. The whole question was gone over carefully at a meeting held in the Glenn House adjoining the Milburn residence. Attorney General Knox has wired his decision to Acting Secretary Hackett. Members of the cabinet have no knowledge of any suggestion of postponing the Schley court.

WORKERS KEPT AWAY.

Strikers Keep Men Away from the Steel Mills at McKeesport.

Pittsburg, Sept. 9.—The strike situation in McKeesport reached an acute stage this morning and very serious trouble was feared as the result of the efforts of the striking tube workers to prevent the men from returning to work as they did Saturday. These efforts were almost perfectly successful, and where last week from 800 to 1000 men back into the mill, not more than a dozen were able this morning to elude the vigilance of the pickets and get back into the mill.

Weavers' Strike Compromised.

New York, Sept. 9.—A compromise has been effected between the weavers and the officers of the silk mill of Dexter, Lambert & Co., at Paterson, N. J., and as a result the strike that has been in progress for six months has been declared off. The workmen demanded 30 cents an hour, but compromised at 27. It is believed that other strikes in the Paterson mill will be settled this week.

FRANKLIN BROTHERS

CZOLGOSC NOT ALONE

It Is Firmly Believed Others Concerned in His Crime.

A SERIES OF CRIMES.

Some Connect Emma Goldman With the Conspiracy and the Murder of the President Only the Beginning of the Plots.

Buffalo, Sept. 9.—That there was a conspiracy in which many besides Czolgosc were concerned and which had the destruction of President McKinley as its purpose, is the firm conviction of all the members of the cabinet and of the Buffalo police. An agent of the United States secret service said that the theory is held that Emma Goldman, the anarchist, was the prime mover in this plot, which may have contemplated a series of crimes, of which the murder of the president was only the beginning. Emma Goldman was in Buffalo last Monday. She was here under an assumed name. What the object of her visit was has not been learned, but presumably it was in connection with the crime that followed four days later. The police all over the United States are now searching for Emma Goldman, who seems to have disappeared utterly.

It can be stated on absolute authority that this woman teacher of anarchy will be expelled if excuse of law can be found for such an act. Moreover, she will not go alone. Holding to the theory that the anarchists conspired against the constitution, authority and government of the United States and planned the assassination of President McKinley, the members of the cabinet will urge that strenuous efforts be made to eradicate them. Secretary Root is particularly earnest in urging this.

Few believe that Czolgosc was alone in the crime, or that he has been anything more than a mere instrument under the control of the real conspirators. That other and important arrests are contemplated in the near future, is known to be a fact.

Czolgosc has made no additional admissions to the police officials and nothing they have learned has added toward a solution of the criminal side of the case. He still insists that he alone conceived, planned and carried out the crime and that he alone must answer for it.

He admits he attended meetings at which Emma Goldman spoke and where he and his fellow anarchists discussed their propaganda of murder, but steadily denies that any of them had a part in his plans. He says he did not divulge to them any feature of his scheme to kill the president.

WATCHING ANARCHISTS.

Move Made in New York City to Stop Holding of Meetings.

New York, Sept. 9.—Haunts of anarchists in this city were deserted Sunday, according to the police. Special detectives have been on the watch everywhere members of the band are known to have collected in the past.

Instructions have been issued to the owners of halls not to rent them to anarchists. Same conditions ruled in Paterson where no big meetings were held as is customary on Sunday.

Mayor Hinchliffe of Paterson has given notice that any saloonkeeper who rents his hall for anarchists' meetings will have his license revoked. Licenses will be refused to applicants known to be even friendly with the followers of the red flag.

More Anarchists Praise Czolgosc.

McKeesport, Pa., Sept. 9.—Two hundred Italian anarchists celebrated President McKinley's attempted assassination Sunday at Guffey Hollow, a mining hamlet across the river from Buena Vista. Beer, whisky, speeches, songs and praise for Czolgosc were the order of the day. This is one of the largest anarchist groups in the country. It was started and led for years by Garcia Ciamesville, who now lives at Springfield, Ill., and edits The Firebrand, the anarchist organ of Chicago. When Bresci assassinated King Humbert he declared that McKinley would be the next victim of the anarchist plots.

Conferred With Chicago Anarchists.

Chicago, Sept. 9.—If any further proof was needed that Leon Czolgosc was the guest of Chicago anarchists shortly before he went to Buffalo on his murderous mission against President McKinley, it was supplied Sunday by three of the prisoners in the Central police station here. They identified a photograph of the murderous "red" as a picture of a man whom they saw at the home of Abraham Isaak, 515 Carroll avenue, not longer than July 12.

Eleven men and women, avowed anarchists, are under arrest here on the charges of conspiracy to commit murder and others will be arrested.

WITHOUT A QUORUM.

Neither House Had Enough Members to Transact Members.

Austin, Sept. 9.—Neither branch of the legislature had a quorum this morning. The house was shy 11 and the senate 5. The house recessed until the afternoon and the senate adjourned to tomorrow morning.

Resolutions condemning in unqualified terms the assassination of President McKinley will be offered as soon as a quorum is present. Legislators condemn the act as dastardly, and very likely steps will be taken by the legislature to petition the national congress to pass a law for the banishment of all anarchists out of the United States.

Dowieite Patient Dead.

Wichita, Kas., Sept. 9.—The Dowieite missionaries' first patient in Wichita is dead, and as a result there is great indignation among the neighbors of William Jones, whose 13-year-old son is the victim. The boy contracted typhoid fever, and his parents, who had become disciples of Dowieism, called in the local missionaries, Mr. and Mrs. D. A. Reed. The latter advised them not to call in a doctor, since they could cure the child by means of their prayers. Accordingly they prayed, and prayed hard. The boy gradually became worse and finally died. The Dowieites claim the lad had no faith, and consequently could not be benefited by prayer. The neighbors blame the parents, since they say that the child's life might have been spared if a physician had been called at the proper time. The matter will likely be taken up by the police department and an investigation made.

Severe Storm on Lake Huron.

Port Huron, Mich., Sept. 9.—The worst disasters ever on Lake Huron are piled up on shore here. Many thousand dollars worth of vessels and property were wrecked and the chance for getting them off are slim unless many thousands of dollars are expended in dredging. Strange to say in connection with this great calamity there is no loss of life. The life saving crew took off 38 people and the others were beyond danger. The storm raged 24 hours.

Prostrated by a Charivari.

Ablene, Kas., Sept. 9.—Startled by a charivari just after her wedding ceremony Thursday evening, Mrs. William Bailey still lies unconscious at her father's home, 10 miles north of town. The ringing of a number of cow bells and blowing of horns so startled her that she fainted, and has since lain in a semi-stupor. She has grown worse and the physicians fear that her illness will end fatally.

No Official Reception.

London, Sept. 9.—The Times prints a dispatch from Tokio stating that there will be no official reception of the special mission sent by China to apologize for the murder of Sugi Yama, the chancellor of the legation at Peking, until it is presented by the Chinese minister to Japan. No complications are feared, as the Japanese ceremonial only will be required.

Miss Stone Still a Prisoner.

Constantinople, Sept. 9.—The American legation learns that Miss Stone, the missionary who was abducted last week by brigands in the vilayet of Salonica, is still a prisoner in the hand of her captors. It has not yet been stated what ransom is demanded for her release.

Sultan's Cooks Mutiny.

London, Sept. 9.—The Constantinople correspondent of The Times says that owing to the nonpayment of salaries, the kitchen staff of the Yildiz Kiosk mutinied last week. The sultan ordered the payment of wages, but at the same time had several cooks imprisoned.

Died from Poisoning.

Fort Worth, Tex., Sept. 9.—Frederick Mennasha, aged 22, died Sunday from poisoning. He was found dead at his father's home on Gay street. He was despondent over a love affair. He is said to have been engaged to a young woman who went to New Orleans last week.

Shot in Saloon Brawl.

St. Louis, Sept. 9.—As the result of a three-cornered fight in a saloon, which culminated in a revolver fusillade, Aug. Walsh was shot in the head, but the wound is not serious. He was shot by Martin Coyne. Michael Dalton was also mixed up in the fight. Coyne and Dalton were arrested.

Plot Against the Assassin.

Buffalo, Sept. 9.—The police believe they have discovered a conspiracy to take the life of Czolgosc. He has been removed to a dungeon in the basement many feet below the surface of the earth.

Rebel Leader Surrenders.

Manila, Sept. 9.—The insurgent leader, Angeles, has surrendered in Camarines with 19 officers and 42 men, and a number of rifles and a quantity of ammunition. Numbers of other small surrenders occur daily.

Big Fire in China.

Vancouver, B. C., Sept. 9.—Steamer Tartar brings news of a disastrous fire in Foo Chow, China, with a loss of \$1,000,000. Many coolies who resorted to loot during the fire were shot down by the police.

services were attended by about 7000
people. Rev. Henry Cohen, rabbi of

services with prayer, Rev. Father James
Kirwin, of St. Mary's Catholic cathedral
delivered an address, as did also Col. R.
G. Street, and Rev. William Harris of

after which the planting of cedars and

and several hundred cedars were placed

QUESTION ANSWERED.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers' and grandmothers' never thought of using anything else for Indigestion or Billiousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's Price Almanac. For sale by Wilson-Jenkins Drug Co.

PRESIDENT IS BETTER

His Condition Satisfactory to All Attending Physicians.

THERE IS NOW HOPE.

The President Rests Well Under the Circumstances and Has Been Given Food—The Crisis Has Almost Been Reached.

Buffalo, Sept. 9.—President McKinley's condition early this morning was so favorable it has dispelled almost the last shade of doubt and apprehension and has led those nearest to him to make the most confident predictions of recovery. Official bulletins from physicians, as well as authoritative statements of those most intimate in relation with the presidential household, give certain the feeling that the worst phases of the crisis is about over.

The 6 a. m. bulletin in referring to the president's somewhat restless night gave temporary apprehension, but this was speedily dispelled by the results of the consultation held by the doctors from 8 to 9 o'clock officially announced at a later hour. This disclosed marked improvement in pulse and temperature. Aside from these pathological features the doctors gave cheering information, free from all technicalities, that the president's condition was becoming more and more satisfactory and untoward complications less likely. Besides their official utterances, doctors gave expressions reinforcing their buoyant and confident tone.

They made known, too, that the president's mind was clear, his mental faculties as vigorous as ever and that he retained his cheerful and happy disposition. He was even ready to talk with the doctors, but they restrained him to a considerable extent. These positive assurances gave to members of the cabinet and relatives and nearest friends of the president a feeling of confidence little short of absolute certainty that the president is now well on the way to recovery.

Every word that came from the big vine-clad house on Delaware avenue Sunday, in which the stricken chief magistrate of the nation lies battling for life, was reassuring and the chances of his recovery are so greatly improved that all of those who have kept patient vigil at his bedside feel strongly that his life will be spared.

The developments of Saturday night and Sunday were dreaded, but hour after hour passed and the distinguished patient, struggling there beneath the watchful eyes of physicians and trained nurses showed not an unfavorable symptom. Five times during the day the eminent doctors and surgeons assembled for consultation and each time the verdict was unanimous that what change had occurred was for the better. Not the slightest premonitory symptom of peritonitis appeared.

All the effects of the ether which was administered when the operation was performed on the exposition grounds, had disappeared Sunday morning and the president's mind was perfectly clear during the time he was awake. Sunday for the first time he had natural sleep. While he was still more or less under the influence of the anesthetic his slumber was restless and disturbed and did him little good. Sunday between 9 and 4 o'clock he had the solace of natural slumber for about four hours and the physicians stated that his sleep had been quiet and reposeful and helped the sufferer a great deal.

Sunday also for the first time, nourishment was administered. It was in liquid form and was injected hypodermically to avoid the possibility of irritating the walls of the stomach. The exterior wound is progressing satisfactorily.

All of the members of the cabinet are here now except Secretaries Hay and Long, but both are expected. The cabinet officers are holding no formal meetings, although there are some matters of public business which they daily discuss informally and the possible contingencies should the president grow worse, are also thoroughly canvassed. They do not believe there is the remotest possibility that Vice President Roosevelt will be called upon to exercise functions of chief magistrate under the disability clause of the constitution, while the president lives. Vice President Roosevelt would not hear of such a course. Still in the event of grave international complications an emergency might occur that will force action.

The messages of sympathy continue to come from all over the United States, and all over the world and in fact have fairly overwhelmed Secretary Cortelyou. Two more white house messengers have been sent for and upon their arrival some of the more important messages will be made public. Almost every government in the world has been heard from.

Mrs. McKinley continues to bear up bravely and her fortitude under the circumstances is regarded as remarkable. One of her dearest and closest friends, Mrs. Rand, of Washington has arrived here and will remain with her.

The members of the cabinet are doing everything in their power to prevent the sensational exploitation of Czolgosz, because he undoubtedly craves notoriety, and because his fellow anarchists throughout the country love it. They do not desire to place any stone in the path of the authorities who are laboring to unravel the plot, if any existed, and all the machinery of the government secret service will be used to aid the state authorities in the prosecution of their investigation.

ROOSEVELT GUARDED.

More Safeguards Thrown Around Him Than the President.

Buffalo, Sept. 9.—Although Vice-President Roosevelt does not know it, the government has made more adequate provision for his protection than it did for that of President McKinley. Whenever the vice president leaves the residence of Lawyer Ansley Wilcox, where he is staying, there are two or three secret service men at hand to ward off any attempt that might be made on his life. The orders for the protection of the vice president comes from a source that is not disclosed. During his attendance at services in the First Presbyterian church Sunday six secret service men occupied seats within a short distance of him. One of them took a seat on the box of his carriage when he drove away and the others followed in another carriage. When he alighted at the Buffalo club during the afternoon, the detectives were close at hand and when he called at the Milburn house to inquire after the president, they were in a few feet of him.

Polish Citizens Indignant.

New York, Sept. 9.—An indignation meeting attended by about 5000 Poles, of which it is estimated there are 40,000 in New York City, was held Sunday at the church of St. Stanislaus and bitter words of denunciation of Czolgosz and his crime were uttered, while the expression of sympathy for the president and those belonging to him was warm and universal. Doubt as to the nationality was discussed and it was decided to make a full investigation and to the American people that he is not a Pole but a Russian.

Polish Citizens Make Protest.

Philadelphia, Sept. 9.—Over four hundred Polish-Americans gathered in St. Laurentius Roman Catholic church here Sunday, passed resolutions deploring the shooting of President McKinley and protested against the statements that would be assassin was connected with the Polish people of this country. Seventeen Polish-American societies were represented at the meeting.

The Assassin Indifferent.

Buffalo, Sept. 9.—Leon Czolgosz continues to eat well and sleep well and seems absolutely indifferent to his fate. He makes no inquiries as to the condition of the president and apparently cares nothing at all as to the outcome of his injuries.

LONG REFUSES.

Will Not Entertain Proposition to Persecute Admiral Schley.

Buffalo, Sept. 9.—Acting Secretary of the Navy Hackett has been pressing Attorney General Knox both by wire and letters to appoint one of the assistant attorney generals to assist Captain Lemly, judge advocate of the Schley court of inquiry, in the conduct of the case before the court. The attorney general, however, has declined to take the step which he believes would look like government prosecution of an officer under investigation. The government, in his opinion, should have no part in the inquiry. It is an inquiry under the navy department, made at the request of Admiral Schley and the government has nothing to do with it.

The president himself had recommended Admiral Schley for promotion and now for the department of justice to detail an officer under it to assist in the conduct of this case would inevitably be construed as a desire on the part of the administration to convict Admiral Schley. The attorney general was sustained in his position by all members of the cabinet whom he consulted. The whole question was gone over carefully at a meeting held in the Glenn House adjoining the Milburn residence. Attorney General Knox has wired his decision to Acting Secretary Hackett. Members of the cabinet have no knowledge of any suggestion of postponing the Schley court.

WORKERS KEPT AWAY.

Strikers Keep Men Away from the Steel Mills at McKeesport.

Pittsburg, Sept. 9.—The strike situation in McKeesport reached an acute stage this morning and very serious trouble was feared as the result of the efforts of the striking tube workers to prevent the men from returning to work as they did Saturday. These efforts were almost perfectly successful, and where last week from 800 to 1000 men back into the mill, not more than a dozen were able this morning to elude the vigilance of the pickets and got back into the mill.

Weavers' Strike Compromised.

New York, Sept. 9.—A compromise has been effected between the weavers and the officers of the silk mill of Dexter, Lambert & Co., at Paterson, N. J. and as a result the strike that has been in progress for six months has been declared off. The workmen demanded 90 cents an hour, but compromised at 27. It is believed that other strikes in the Paterson mill will be settled this week.
